

No matter what size
boat you have...

Or wish you had...

We have a NavNet system to fulfill your dreams!

Introducing
NAVnet ^{BB}

We started with our 10.4" and 7" VGA Color NavNet systems, but you wanted the power of NavNet with a bigger screen. Your dream has come true with the new Black Box NavNet! Choose virtually any size VGA monitor and plug the processor with keyboard into it and you are good to go! Or match it with our new 12" or 15" sunlight viewable marine monitors and now you have a complete Furuno package you know you can rely on.

Radar • Chart Plotter • GPS/WAAS • Fish Finder • Weather Fax • Video Input/Output • Multiple Displays
All on a high speed Ethernet Network

FURUNO[®]

Everything else is a compromise!
