

# Think of it as cruise control... You cruise while it controls.

NavPilot 520  
(also available as handheld remote)

NavPilot 511

NavPilot 500

## A new wave of automated navigation is at hand.

From the first dock-side setup through the last voyage you made, the NavPilot autopilot continues to learn your vessel's steering characteristics, allowing for dynamic adjustment for vessel speed, trim, draft, tide and wind effects. With a standard set of features unrivaled by any other autopilot on the market, the NavPilot series is a perfect fit for any vessel from cruising sailboats through the most serious sportfish boats and everything in between. Interface your NavPilot to a variety of Furuno equipment, including all NavNet systems, for the ultimate Complete Helm Solution.
