# GPS/WAAS CHART PLOTTER with built-in CHIRP FISH FINDER 

Ⓖロ-1871F =GP-1971F

## Multi-Touch Interface

## Convenient and intuitive slide-out menus

The GP-1871F/1971F smart interface, inherited from the NavNet TZtouch2, features slide-out menus containing all the tools and data you need to be in total control.

Quick page and favorite
display modes

Slide-out Menu for often-used functions

| Mode | Dual ... > | Cursor info | Off |
| :---: | :---: | :---: | :---: |
| RezBoost | Enha... > | ACCU-Fish | оFF |
| Bottom disc | Off | Size Correction | 0\% > |
| A-Scope | ov | Accu-Fish Filter | 1,2,3,4> |

## Layers for quick settings

## Display modes customization

Customize your display modes and create the perfect combination to fit your individual needs.

Easy screenshot!
Tap the display with two fingers to capture a screenshot that will be saved directly to your micro SD card.

Chart Plotter (with internal GPs antenna)

## Detailed Chart with Navionics \& C-MAP 4D compatibility with V4.0

By using the incredibly rich C-MAP 4D and Navionics charts, the GP-1871F/1971F delivers highly precise data that features plenty of useful information, such as relief vectors, tidal streams and marine plans, considerably enhancing your navigational awareness. The GP-1871F/1971F v4.0 is now compatible with Navionics+ and Platinum+ charts and offers various new features such as: Nautical Chart, SonarChart ${ }^{T M}$, Community Edits, Dock-to-dock Autorouting, SonarChart ${ }^{\text {TM }}$ Live, Advanced Map Options, Plotter Sync etc.

C-MAP Chart data

Navionics Chart data

## > Autopilot controls

Chart Plotter with NAVpilot controls

Via the CAN bus network interface, The NAVpilot-300 and NAVpilot-711C can be connected to the GP-1871F and GP-1971F and controlled directly from the Chart Plotter.
> Plotter with AIS symbols
When connected to an AIS receiver, the GP-1871F/1971F will display the latest AIS data and provide vessel information.

## Various display modes

Including Shaded reliefs, 3D and Satellite views.

# Built-in CHIRP Fish Finder 

Unmatched detail with TruEcho CHIRPTM
*Requires connection to a CHIRP transducer

Fish echoes displayed with a CHIRP transducer

TruEcho CHIR

The high level of detail available with TruEcho CHIRPTM technology helps to distinguish fish schools, even when close to the sea bed.

Fish can be observed with a very high resolution and are displayed in a distinct boomerang shape. The clear presentation marks individual game fish and bait fish, even when tightly schooled together.

## ACCU-FISH ${ }^{\text {TM }}$ and Bottom Discrimination with RezBoost ${ }^{\text {TM }}$

*Requires connection to a compatible CW Dual-Frequency transducer
With FURUNO's RezBoost ${ }^{\text {TM }}$ data processing technology, fish schools and echoes are shown with high resolution while you can assess fish size and bottom composition thanks to ACCU-FISH ${ }^{T M}$ and Bottom Discrimination functions.

Additionnaly, ACCU-FISH ${ }^{\text {TM }}$ icons and colors can be freely customized according to the size and depth of the targeted fish.

ACCU-FISH ${ }^{\text {mm }}$ and Bottom Discrimination with RezBoost ${ }^{\text {TM }}$

## Wireless Radar Connection

## DRS4W 1 ${ }^{\text {st }}$ Watch Wireless Radar

The GP-1871F and GP-1971F are connectable to the $1^{\text {st }}$ Watch Wireless Radar (Output Power 4 kW ) giving your Chart Plotter a major upgrade in accuracy and safety.
